PRODUCT DESCRIPTION

- Struggling to connect USB devices because the cable is too short? This 15-meter extension cable gives you the freedom to place devices exactly where you need them.
- Designed for stable long-distance connection without signal loss for everyday devices like keyboards, printers, and flash drives.
- Supports high-speed data transfer up to 480Mbps for smooth performance in daily use.
- Ideal for extending USB ports in offices, homes, and workstations without relocating your setup.
- Note: Best for standard devices — not recommended for high-power devices like external hard drives without external power.

□ Best For

- Office setups needing long USB reach
- Home users extending keyboard, mouse, or printer connections
