PRODUCT DESCRIPTION

- Need a premium MacBook for office work, study, browsing, media, documents, design basics, and daily productivity? This Apple MacBook Pro Retina 15-inch 2014 gives you a solid Apple laptop experience with a sharp Retina display and strong classic MacBook build quality.
- Powered by a 2.5GHz Quad-Core Intel Core i7 processor, it handles daily productivity tasks, multitasking, browsing, Microsoft Office, online work, emails, presentations, and light creative work better than basic laptops.
- 16GB RAM gives better multitasking power, especially for users who open many tabs, documents, apps, and work tools at the same time.
- 512GB storage gives enough space for documents, media, apps, school files, business files, and everyday personal data.
- The 15-inch Retina display gives sharp visuals, making it good for office work, movies, photo viewing, design basics, and general productivity.
- Intel Iris Pro Graphics 1536MB supports normal graphics work, presentations, videos, and light creative tasks.
- Good choice for users who want an affordable MacBook with a large screen, strong RAM, and premium Apple design.

- Mchongo huu si wa kukosa

- Important: This is a 2014 MacBook Pro model, so it is best for daily productivity, study, office work, browsing, media, and light creative tasks. It is not recommended for heavy modern video editing, heavy 3D work, or demanding gaming.
