- 📺 Useful for CCTV installers
- 🔋 2 batteries included
- 📶 RJ45 cable support
- 👤 Mchongo huu si wa kukosa
- 🔍 Cable tracer tool
- 👤 Portable technician tool

PRODUCT DESCRIPTION

- Need to trace network cables, telephone wires, and hidden cable routes faster? The UC-WT288 Cable Tracer is a practical technician tool for identifying, tracing, and checking cables during network installation, CCTV setup, office cabling, and repair work.
 - Helps locate network cables without guessing, making it useful when working with routers, switches, patch panels, wall sockets, CCTV NVRs, IP cameras, modems, and office network setups.
 - Supports RJ45 and RJ11 cable tracing/testing, making it useful for both Ethernet network cables and compatible telephone-style cables.
 - Good for checking cable continuity, identifying cable paths, finding the correct cable among many cables, and reducing time wasted during troubleshooting.
 - Comes with 2 batteries in the package, so the tool is ready for use after setup.
 - Compact handheld design makes it easy to carry for field work, home internet setup, office LAN installation, CCTV cabling, computer repair, and technician jobs.
 - 📦 Mchongo huu si wa kukosa
 - ⚠ Important: This is a practical cable tracing and basic testing tool, not a professional high-end network certification meter.
 - ⚠ Always test carefully before connecting important devices such as routers, switches, servers, NVRs, and IP cameras.
 - 📦 Advantage: Cable tracing + RJ45/RJ11 support + included batteries = a useful tool for technicians, CCTV installers, and network cable troubleshooting.
- 📦 Best For
- 📦 IT Technicians
 - 📦 Network Cable Tracing
 - 📦 CCTV Installers
 - 📦 Office LAN Setup
 - 📦 Home Internet Setup
 - 📦 Computer Repair Shops
 - 📦 Router, Switch & Patch Panel Work
 - 📞 RJ11 Telephone Cable Checking
