## PRODUCT DESCRIPTION

- Need a reliable serial communication cable for computer data connection, RS232 devices, industrial equipment, or legacy hardware? This DB9 RS232 Male to Female Cable is designed for simple data communication between compatible devices.
- Features DB9 male-to-female connection, suitable for extending or connecting RS232 serial devices.
- Supports null modem communication with crossed TX/RX line, useful for compatible serial communication setups.
- Suitable for computers, data terminals, control devices, industrial machines, POS systems, and other RS232-compatible equipment.
- Practical for technicians, IT support teams, electronics users, repair shops, and users working with older computer communication systems.
- Simple plug connection makes it easy to use with compatible DB9 serial ports.
- ⚠ Important: This is a DB9 RS232 serial cable, not a normal VGA monitor display cable. Confirm your device port before buying.
- □ Advantage: Male-to-female DB9 RS232 connection + null modem TX/RX support = useful cable for serial data communication and legacy device connection.

### □ Best For

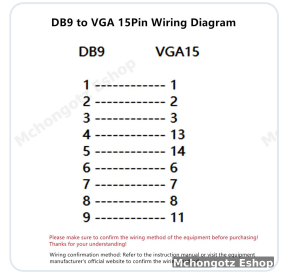

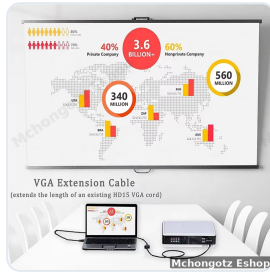

- □ Computer Technicians
- □ Industrial Equipment Users
- □ Legacy Computer Connections
- □ POS / Terminal Devices
- □ RS232 Data Communication
- □ IT Support Work
- □ Electronics Repair

## ADDITIONAL SPECIFICATIONS
