PRODUCT DESCRIPTION

- Need a reliable desktop built for professional work and long-term use? The Dell OptiPlex 7020 is designed for business environments that demand stability and performance.
- Powered by Intel Core i5 14th Generation processor, it delivers smooth performance for office work, multitasking, and daily operations.
- 8GB RAM and fast 512GB SSD ensure quick startup, efficient workflow, and consistent performance.
- CPU only (no monitor included) — gives you flexibility to choose your preferred display setup.
- OptiPlex series is known for durability, reliability, and long-term business use — trusted in offices worldwide.
- Ideal for companies, offices, and professionals who need a dependable system for daily operations.
- Clean, professional design fits perfectly in office environments.
- ⚠ Not built for gaming or heavy graphics work — focused on business performance.
- ☑ Advantage: Business-class reliability + modern performance = dependable workstation for serious use.

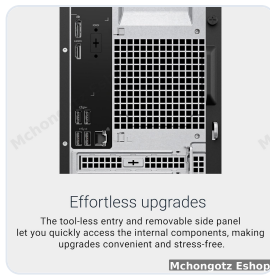

☑ Best For

- ☑ Offices & Companies
- ☑ Administrative Work
- ☑ Business Operations
- ☑ Shops & POS Systems
- ☑ Professional Home Office
