PRODUCT DESCRIPTION

- Looking for a premium slim laptop that feels high-end, fast, and reliable for serious work? The Dell XPS 13 9310 is built for professionals who want performance in a compact body
- Powered by Intel Core i5 11th Gen (up to 4.2GHz), it delivers smooth speed for multitasking, office work, and productivity tasks
- 16GB DDR4 RAM ensures strong multitasking performance — ideal for handling multiple apps, browser tabs, and business tools at once
- 512GB NVMe SSD gives ultra-fast boot times, quick file transfers, and enough storage for documents, software, and projects
- 13.3" Full HD+ (1920 x 1200) display offers sharp visuals with more vertical workspace for documents and productivity
- Premium slim and lightweight design (~1.2kg) makes it perfect for travel, meetings, and everyday mobility
- Intel Iris Xe Graphics supports smooth visuals for office tasks, presentations, and light creative work
- High-end aluminium build with carbon fiber palm rest gives a strong, durable, and executive feel
- Features include HD camera, backlit keyboard, WiFi 6, Bluetooth, and stereo speakers for a complete modern setup
- Battery designed for long usage hours, suitable for full-day work without constant charging
- Ports include Thunderbolt 4 (USB-C), headphone jack, and microSD card slot for modern connectivity
- Refurbished (clean, excellent condition) — premium flagship laptop at a significantly reduced price
- Limitation: Non-touch model and limited traditional ports (requires USB-C accessories if needed)
