Flat Cable Design

PRODUCT DESCRIPTION

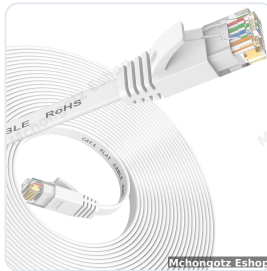

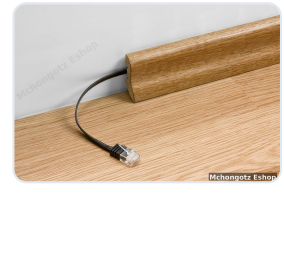

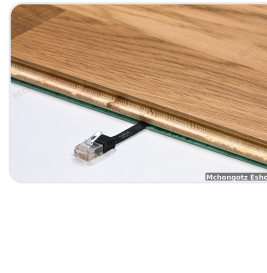

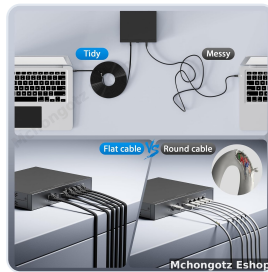

- Need a long LAN cable for stable wired internet across rooms, offices, shops, or larger setups? This Flat Cat 6 LAN Cable 20M gives you reliable Ethernet connection with a clean flat design.
- The 20M length is useful when your router, switch, modem, desktop, smart TV, printer, or CCTV NVR is far from the connection point.
- Cat 6 standard supports reliable wired network performance for browsing, streaming, online meetings, gaming, file sharing, office work, and business use.
- Flat cable design makes installation cleaner because it can pass along walls, under carpets, behind desks, and through tight spaces more easily than round LAN cables.
- Available in three color options: Blue, Black, and White — choose the color that matches your setup.
- Advantage: 20M length + Cat 6 performance + flat design + color options = clean and stable network connection for home, office, shop, and long-distance indoor setup.

 Best For

- Home Internet Setup
- Office Networking
- Shop / Business Setup
- Desktop PC Connection
- Gaming Setup
- Smart TV Connection
- Router / Switch Connection
- CCTV NVR Connection
- Computer Technicians
