PRODUCT DESCRIPTION

- Need a premium ultra-slim laptop that looks clean, feels light, and performs smoothly for serious daily work? The Google Pixelbook Atlas is built for users who want portability, speed, and style in one machine.
- Powered by Intel Core i5 8th Generation processor with speed up to 4.2GHz, it delivers reliable performance for office work, browsing, online meetings, study, and multitasking.
- 16GB RAM gives strong multitasking power, making it smooth when using many tabs, documents, apps, and work tools at the same time.
- 128GB SSD provides fast startup, quick file access, and responsive everyday performance.
- 13.3-inch touchscreen display gives a modern, flexible working experience with easy navigation and clear visuals.
- Very slim and lightweight design makes it perfect for travel, meetings, school, office, and daily movement.
- Backlit keyboard allows comfortable typing even in low-light environments.
- Fingerprint reader adds quick login and extra security for daily use.
- Long battery performance makes it suitable for users who need a portable laptop that can last through work or study sessions.
- ⚠ Not designed for gaming or heavy graphics work — best for business, study, productivity, browsing, and professional use.
- ☐ Advantage: 16GB RAM + touchscreen + ultra-slim premium design = powerful portability at a strong value.

☐ Best For

- ☐ Business Professionals
- ☐ Students / Wanachuo
- ☐☐ Programmers / Developers
- ☐ Remote Work & Online Meetings
- ➔ Travel & Portability
- ☐ Office Work & Daily Productivity
