👤 Mchongo huu si wa kukosa

🔧 POE cable tester

🔧 Portable technician tool

PRODUCT DESCRIPTION

- Need a simple tool for checking network cables, RJ45 connections, RJ11 telephone lines, and POE network setup? This Master NSS-68AF POE Cable Tester is useful for technicians, CCTV installers, network installers, office IT teams, and computer repair shops.
- Supports RJ45 network cable testing, making it helpful when checking LAN cables used for routers, switches, CCTV NVRs, IP cameras, desktop PCs, access points, and patch panels.
- RJ11 support makes it useful for checking compatible telephone-style cables and basic communication lines.
- POE testing support helps technicians identify power over Ethernet availability on compatible network lines before connecting supported POE devices.
- Suitable for troubleshooting weak or faulty cables, wrong wiring, disconnected lines, and basic network installation issues.
- Compact and easy to carry, making it practical for field work, office network setup, CCTV installation, home internet setup, and workshop use.
- 📺 Mchongo huu si wa kukosa
- ⚠ Important: This is a practical basic cable and POE testing tool. It is not a high-end network certification meter.
- ⚠ Always test cables carefully before connecting expensive devices such as routers, switches, NVRs, IP cameras, and servers.
- 📺 Advantage: RJ11 + RJ45 + POE support = useful technician tool for network cable checking, CCTV setup, and office LAN troubleshooting.

📺 Best For

- 📺 IT Technicians
- 📺 CCTV Installers
- 📺 Network Cable Testing
- 📺 Office Network Setup
- 📺 Home Internet Setup
- 📺 POS / Shop Network Setup
- 📺 Computer Repair Shops
- 📺 Router, Switch & IP Camera Testing
