Mchongo huu si wa kukosa

Good for IT technicians

Compatible with modem

Supports solid or stranded UTP cable

PRODUCT DESCRIPTION

- Need RJ45 connectors for making LAN cables faster and cleaner? These RJ45 Cat5e EZ Pass Through Connectors are designed for easier Ethernet cable termination, especially when working with Cat5 and Cat5e network cables.
- Pass-through design allows the wires to go through the connector before crimping, making it easier to confirm wire order before final crimping.
- Suitable for solid or stranded UTP network cables, making them useful for network installers, CCTV technicians, IT support teams, office setup teams, computer shops, and home internet installations.
- Comes as a 100-pack, giving you enough connectors for multiple cable installations, repairs, office networking, CCTV setups, router connections, and patch cable preparation.
- Compatible with common network devices such as modems, PCs, printers, servers, televisions, routers, switches, CCTV NVRs, access points, and patch panels.
- Works best with an RJ45 pass-through crimping tool for clean cutting and proper connector termination.
- Mchongo huu si wa kukosa
- Important: For best results, use with a compatible RJ45 pass-through crimping tool and confirm correct wire arrangement before crimping.
- Network performance depends on cable quality, connector quality, correct wiring standard, and proper crimping.
- Advantage: 100-pack quantity + pass-through design + Cat5/Cat5e support = faster and cleaner LAN cable termination for technicians and network installers.

Best For

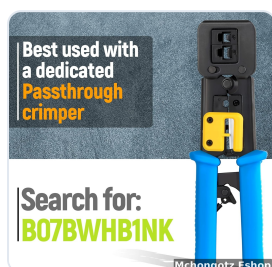

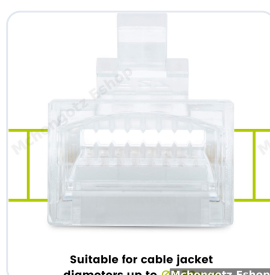

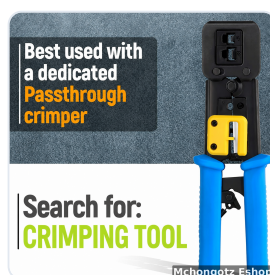

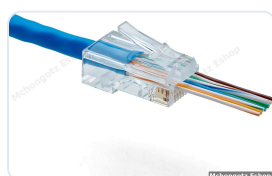

- IT Technicians
- Network Cable Installation
- CCTV Installers
- Office Network Setup
- Home Internet Setup
- PC / Printer / Server Network Connection
- Router, Switch & Modem Cabling
- Computer Repair Shops

ADDITIONAL SPECIFICATIONS

- Product Type: RJ45 Ethernet Connector / Network Plug
- Connector Type: RJ45 Pass Through / EZ Connector
- Pack Quantity: 100 Pieces
- Cable Compatibility: Cat5 and Cat5e Network Cable
- Cable Type Support: Solid or Stranded UTP Network Cable

- Design Type: Pass-Through Connector
- Main Use: Ethernet Cable Making, LAN Cable Termination, Network Installation and Cable Repair
- Compatible Devices:
 - Modem
 - PC
 - Printer
 - Server
 - Television
 - Router
 - Network Switch
 - CCTV NVR
 - IP Camera
 - Access Point
 - Patch Panel
 - Network Wall Socket
- Recommended Tool: RJ45 EZ Pass Through Crimping Tool
- Usage Type: Home Internet Setup, Office LAN Setup, CCTV Cabling, Computer Shop Work and Technician Installation
- Important Use Note: Confirm correct wiring order and use compatible crimping tool before final crimping
- Best Use: Fast and clean RJ45 Cat5/Cat5e Ethernet cable termination using pass-through connectors
