PRODUCT DESCRIPTION

- Need a flexible power adapter that can support multiple devices instead of buying different chargers for each one?
- This universal power adapter supports multiple voltage outputs including 5V, 9V, 12V, and 19V, making it suitable for a wide range of electronic devices.
- Ideal for routers, CCTV cameras, small electronics, laptops (compatible models only), and other DC-powered devices.
- Adjustable output ensures you can match the correct voltage for your device to avoid damage.
- Compact and practical design makes it useful for home, office, and repair technicians.
- Important: Always confirm correct voltage and amperage before use to avoid device damage.

☐ Best For

- CCTV cameras and security systems
- Routers and networking devices
- Small electronics repair use
- Multi-device power supply needs
- IT technicians and workshops

Technical Specifications

ADDITIONAL SPECIFICATIONS

- Functions: Adjustable DC Power Supply
- Output Voltage: 5V / 9V / 12V / 19V
- Output Current (Amperage): Typically 1A-5A (depending on device requirement)
- Input Voltage: 100V-240V AC, 50/60Hz
- Connector Type: Multi-tip / Adjustable Barrel Output
- Special Features: Adjustable Voltage Selector, Multi-Device Compatibility, Overload Protection
- Usage / Design: Electronics Power Supply for Home, Office & Repair Use
