PRODUCT DESCRIPTION

- Need to connect your USB-C laptop, MacBook, or supported device to a DisplayPort monitor? This USB-C to DisplayPort Cable gives you a direct, high-quality display connection for work, gaming, design, and professional setups.
- Supports high-resolution output up to 8K @60Hz, making it suitable for premium monitors and sharp visual performance.
- Also supports 4K @144Hz and 2K @240Hz on compatible devices and monitors, making it a strong option for gaming monitors, creative work, and smooth display performance.
- Works with USB-C, Thunderbolt 3, and Thunderbolt 4 supported devices, including selected MacBook Pro, Mac Studio, Dell XPS, iPhone 15 series, and other supported USB-C devices.
- 2-meter length gives more flexibility for desk setups, office workstations, gaming desks, and monitor arrangements.
- Direct USB-C to DisplayPort connection means no separate adapter is needed.
- Black cable design gives a clean professional look for office, gaming, and home setups.
- ⚠ Important: Your USB-C device must support video output / DisplayPort Alt Mode or Thunderbolt display output.
- ⚠ This cable is mainly for connecting USB-C source device to DisplayPort monitor. It may not work in reverse from DisplayPort source to USB-C monitor.
- ☑ Advantage: 8K support + DisplayPort 1.4 + 2M length = premium display cable for serious monitor users.

☑ Best For

- ☑ Programmers & Professionals
- ☑ Gaming Monitor Setup
- ☑ Designers & Creators
- ☑ Office Workstations
- ☑ External Monitor Setup
- ☑ Students With USB-C Laptops
- ☑ Home Office Setup
