 usb c | type c to 2 RCA cable

 Car audio compatible

 Gold-Plated Connectors

 4N OFC wire design

## PRODUCT DESCRIPTION

- Need to connect a usb c | type c device to RCA audio/video equipment? This usb c | type c to 2 RCA cable helps connect compatible devices to speakers, amplifiers, TV boxes, HDTVs, car audio systems, and other RCA-supported equipment.
- The 1.5M length gives practical flexibility for home entertainment, speaker connection, TV box setup, projector audio, car audio, and AV equipment connection.
- Designed with 2 RCA male connectors for audio/video-style connection with compatible RCA input devices.
- Built with 4N OFC wire to support stable signal transmission and reduce signal loss during use.
- Gold-plated connectors help resist corrosion, reduce interference, and improve connection durability.
- Suitable for selected TVs, DVD players, amplifiers, computers, projectors, MP3/MP4 players, car audio systems, and compatible usb c | type c devices.
- Useful for users who need a simple AV / RCA connection cable for audio equipment, media devices, and entertainment setups.
- ⚠ Important: Compatibility depends on your device's usb c | type c output support. Not all phones, laptops, or tablets can output RCA audio/video directly through usb c.
- Advantage: usb c | type c connection + 2 RCA output + 1.5M length + gold-plated connectors = practical cable for AV and audio connection setups.

 Best For

- Speaker & Amplifier Connection
- TV Box / Apple TV Setup
- Car Audio Systems
- Projector Audio Setup
- Home Entertainment
- Music & Audio Devices
- Technicians & AV Installers

## ADDITIONAL SPECIFICATIONS
