Good for gaming audio

DAC audio decoding chip

Samsung Galaxy compatible

iPhone 15 compatible

Clear HiFi-style audio output

PRODUCT DESCRIPTION

- Need to use normal wired earphones, headphones, speakers, or AUX cable on a phone or laptop with USB-C only? This USB-C to 3.5mm AUX Audio Adapter helps connect your existing 3.5mm audio devices to compatible Type-C devices.
- Built with a DAC audio chip to support clear digital-to-analog audio conversion for music, calls, gaming, live streaming, and everyday listening.
- Supports 16bit / 48KHz decoding capability, making it practical for stable daily audio output.
- Compatible with many USB-C devices including iPhone 15 series, Samsung Galaxy S24, S23 Ultra, Android phones, tablets, laptops, and computers with supported USB-C audio output.
- Supports inline control on compatible earphones, allowing music control, volume adjustment, and calls depending on the device and headset.
- Compact and lightweight design makes it easy to carry in a pocket, phone pouch, laptop bag, or accessories box.
- Useful for gaming because it provides wired audio connection with low delay on compatible devices.
- ⚠ Important: Compatibility depends on the phone, tablet, laptop, operating system, and USB-C audio support.
- ⚠ Microphone and inline control support depend on the headset and device compatibility.
- ☑ Advantage: USB-C connection + 3.5mm AUX output + DAC chip = simple audio solution for phones and laptops without headphone jack.

☑ Best For

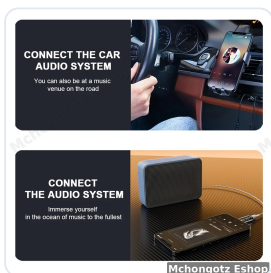

- ☑ Wired Earphones
- ☑ Music Listening
- ☑ Phone Calls
- ☑ Mobile Gaming
- ☑ Live Streaming
- ☑ Karaoke / Voice Use
- ☑ iPhone 15 / Samsung USB-C Phones
- ☑ Laptop Audio Output
