 Plug and play design

 Small portable adapter

PRODUCT DESCRIPTION

- Need to connect normal 3.5mm earphones, headphones, speaker, or AUX cable to a phone, tablet, or laptop with USB-C only? This USB-C to 3.5mm AUX Adapter helps restore headphone jack support for compatible Type-C devices.
- Built with DAC audio decoding support for clear sound output, making it useful for music, calls, gaming, live streaming, karaoke, and online meetings.
- Supports HiFi-style audio output with 16bit / 48KHz decoding capability for stable everyday audio use.
- Plug-and-play design makes it easy to use without complicated setup on supported USB-C devices.
- Supports inline controls on compatible earphones, allowing music playback, volume control, and calls depending on the phone and headset support.
- Compact white design makes it easy to carry in a pocket, laptop bag, phone pouch, or accessories box.
- ⚠ Important: Compatibility depends on the phone, tablet, laptop, operating system, and USB-C audio support.
- ⚠ Inline control and microphone support depend on the headset and device compatibility.
- Advantage: USB-C connection + 3.5mm AUX output + DAC decoding = practical adapter for phones and laptops without headphone jack.

Best For

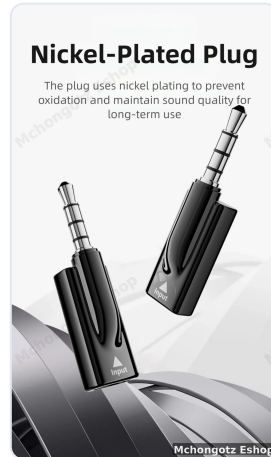

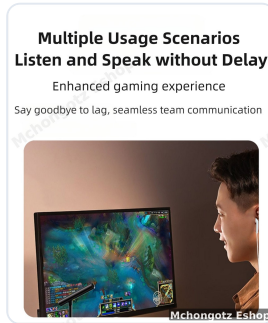

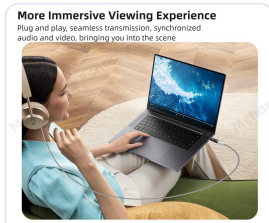

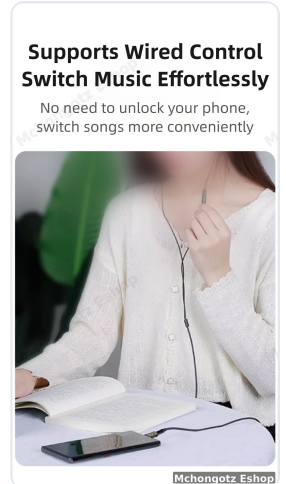

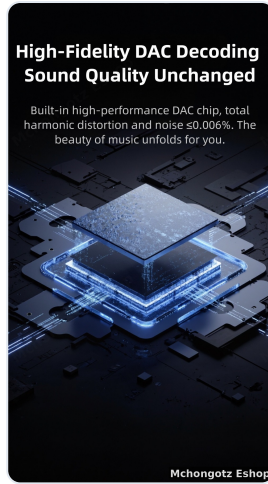

- Wired Earphones
- Music Listening
- Phone Calls
- Mobile Gaming
- Live Streaming
- Karaoke / Voice Use
- Laptop Audio Output
- USB-C Phones & Tablets

ADDITIONAL SPECIFICATIONS
