PRODUCT DESCRIPTION

- Need a longer USB-C to USB-C cable for charging your phone, iPad, tablet, or USB-C device from a distance? This 3M white Type-C to Type-C cable gives you extra length for home, office, bedside, travel, and desk charging.
- The 3M / 10ft length is useful when the socket is far from your bed, desk, sofa, office table, or charging area.
- Slim wire design makes it lighter and easier to carry compared to thicker heavy-duty cables.
- White braided "kitambaa" design helps improve durability, reduce tangling, and give the cable a cleaner premium look.
- Supports fast charging on compatible USB-C chargers and devices.
- Compatible with USB-C iPhones including iPhone 15, iPhone 16, iPhone 17 series, iPhone Air, iPhone 16e, iPad Pro, iPad Air, iPad Mini 7, and other USB-C supported devices.
- Good for daily charging, student use, office desk setups, bedside charging, travel, and phone accessories resale.
- 📦 Mchongo huu si wa kukosa
- ⚠ Important: Fast charging speed depends on your charger adapter, phone, tablet, cable condition, and device charging support.
- ⚠ This is a slim charging cable, so it is best for normal phone/tablet charging and daily use. For heavy laptop charging, use a higher-rated thick cable.
- 📏 Advantage: 3M long cable + slim braided design + USB-C fast charging support = comfortable charging from far sockets without short-cable stress.
