USB 2.0 Interface

PRODUCT DESCRIPTION

- Need to add WiFi connection to a desktop, laptop, or PC without built-in wireless? This USB WiFi Adapter helps your device connect to wireless internet easily through a USB 2.0 port.
- Supports 802.11n wireless standard with advertised speed up to 300Mbps on compatible networks.
- Useful for browsing, online classes, office work, downloads, streaming, and general internet use.
- Compact USB design makes it easy to plug into a desktop or laptop without taking much space.
- Works as a simple wireless network receiver for computers that need WiFi access.
- Suitable for home internet, office setup, computer repair work, school labs, and general PC networking.
- Δ Actual speed depends on your router, internet package, distance, walls, signal strength, and device compatibility.
- Advantage: USB 2.0 connection + 300Mbps wireless support + compact design = affordable WiFi solution for desktops and laptops.

 Best For

- Desktop Computers Without WiFi
- Laptop WiFi Replacement
- Home Internet Setup
- Office Internet Connection
- Students / Online Learning
- Computer Technicians
- Basic Home Networking
