PRODUCT DESCRIPTION

- Trying to connect an old VGA computer to a modern HDMI monitor or TV? This adapter solves the compatibility problem.
- Converts VGA signal to HDMI, allowing older PCs or laptops to work with newer displays.
- Includes audio input via 3.5mm jack so both video and sound are transmitted together.
- Supports up to 1080P output for clear display in presentations or media use.
- Powered via USB cable for stable performance during use.
- Works one-way only (VGA to HDMI), not reversible.

□ Best For

- Connecting old PCs to modern TVs or monitors
- Presentations, office setups, and display upgrades
